Tekið skal fram að framangreindar upplýsingar eru settar fram með fyrirvara um villur og hér er eingöngu um mat á áhrifum að ræða. Upplýsingunum er ætlað að gefa vísbendingu um breytingu fyrir greiðendur veiðigjalds ef frumvarpið hefði verið komið til framkvæmda á því tímabili sem um ræðir.												
Um gögn og aðferðafræði við mat á áhrifum												
Þau grunngögn sem lögð eru til grundvallar við mat á áhrifum eru aðgengileg á gagnasíðu Fiskistofu hvað álagningu veiðigjalds viðkomandi árs varðar. Á gagnasíðu Fiskistofu er m.a. að finna sundurliðun gjalds hvers greiðenda vegna viðkomandi tegunda og lækkun vegna frítekjumarks. Jafnframt er það einnig að finna upplýsingar um veiðigjald pr. kg eftir tegundum fyrir hvert ár. Þannig er unnt að reikna það magn sem lagt er til grundvallar álagningu Fiskistofu fyrir hvern greiðanda fyrir hverja tegund. Í töflum 4 og 10 í frumvarpi um breytingu á veiðigjaldi er síðan að finna upplýsingar um nýtt reiknað veiðigjald (kr./kg) fyrir síld, kolmunna, makríl, ýsu og þorsk sem notaðar eru til að meta áhrif breytingar álagðs veiðigjald fyrir viðkomandi nytjastofna.
