

Iceland

Revised Conditional offer

Iceland hereby submits its revised conditional offer of specific commitments on services.

The offer has been drafted according to the core provisions as of April 2016.

The offer does not include services supplied in the exercise of government authority, nor does it include non-discriminatory measures relating to qualification or licensing requirements. Iceland reserves the right to establish, maintain and fully exercise its national legislation in order to achieve legitimate policy objectives in areas such as consumer protection, education, health and the environment.

The offer does not cover air transport services which are not covered by the GATS.

The attached list of MFN exemptions is based on the assumption that regional integration agreements in the meaning of GATS article V will not be subject to MFN obligations.

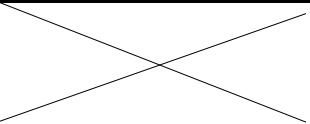

Unless otherwise indicated, the classification of services sectors are based on the 1991 Provisional Central Product Classification of the United Nations Statistical Office and the ordering reflects the services sectoral classification list used in the GATT document MTN.GNS/W/120, dated 10 July 1991.

As regards financial services, Iceland is ready to offer commitments based upon the draft TISA Annex on Financial Services as of 6 May 2016.

This offer is conditional and Iceland reserves the right to withdraw, amend or supplement all or part of this offer at any time prior to the conclusion of the negotiation.
